COPY MAILED

JAN 3 1 2005

OFFICE OF PETITIONS

Applicant: Ognibene Appl. No.: 10/815,655 Filing Date: April 2, 2004

Title: SINGLE-ACTING CYLINDER-PISTON UNIT OF PLUNGER TYPE

Attorney Docket No.: OGNIBENE =1 Pub. No.: US 2004/0194620 A1

Pub. No.: US 2004/0194620 A Pub. Date: October 7, 2004

This is in response to the request for correction of patent application publication under 37 CFR 1.221(b), which was filed on December 7, 2004.

The request is DISMISSED.

The instant request is that the application be republished because the patent application publication contains a typographical error on the front page of the publication as the assignee name "OGNIBENE" is misspelled as "OGINBENE".

37 CFR 1.221(b) is applicable "only when the Office makes a material mistake which is apparent from Office records . . . Any request for a corrected publication or revised patent application publication other than provided as provided in paragraph (a) of this section must be filed within two months from the date of the patent application publication." A material mistake must affect the public's ability to appreciate the technical disclosure of the patent application publication, to determine the scope of the patent application publication, or to determine the scope of the provisional rights that an applicant may seek to enforce upon issuance of a patent. The instant request does not identify a material mistake in the publication made by the Office:

The typographical error on the front page of the patent application publication, wherein the assignee name "OGNIBENE" is misspelled as "OGINBENE" is an Office mistake, but it is not a material error under 37 CFR 1.221(b). The mistake is a minor typographical error. The mistake does not affect the public's ability to appreciate the technical disclosure of the patent application publication, or determine the scope of the patent application publication or determine the scope of the provisional rights that an applicant may seek to enforce upon issuance of a patent.

¹Changes to Implement Eighteen-Month Publication of Patent Applications, 65 FR 57023, 57038 (Sept. 20, 2000), 1239 Off. Gaz. Pat. Office Notices 63, 75 (Oct. 10, 2000) (final rule).

A

On June 18, 2004, a Filing Receipt was mailed, which listed the assignee name as "OGINBENE." To avoid this type of problem in the future, applicant's representative should review the filing receipt and make a request for a corrected filing receipt using the facsimile number (703-746-9195) on the Filing Receipt.

Applicant's request for a corrected patent application publication on December 7, 2004, may constitute a "failure to engage in reasonable efforts to conclude processing or examination of the application." See 1.704(c). This determination will be made on or after a mailing of a Notice of Allowance.

The applicant is advised that a "request for republication of an application previously published" may be filed under 37 CFR 1.221(a). Such a request for republication "must include a copy of the application in compliance with the Office's electronic filing system requirements and be accompanied by the publication fee set forth in § 1.18(d) and the processing fee set forth in § 1.17(i)." If the request for republication does not comply with the electronic filing system requirements, the republication will not take place and the publication fee set forth in § 1.18(d) will be refunded. The processing fee will be retained.

Any request for republication under 37 CFR 1.221(a), must be submitted via the EFS system and questions or request for reconsideration of this decision, should be addressed as follows:
